

Series 550-T Wide Stile Thermal Door

Our Series 550-T Thermal Entrances offer a two glass stop design, Polyurethane Polymer Thermal Break, and mechanically fastened and welded corners, offering one of the best thermal properties available in commercial entrance doors. All doors offer clean lines and are supplied with unique Astral II push/pull hardware and maximum security locks. These entrances can easily accommodate a wide variety of custom hardware for specific job requirements. Optional 10" (254) bottom rail is available for A.D.A. requirements.
