

Durafront Series 850 Wide Stile Door

Series 850 Durafront doors and frames are fabricated from tubular aluminum extrusions with a wall thickness of 3/16". These entrance packages are ideal for locations subjected to extremely high traffic flow. Durafront entrance packages, which are offered for center and offset hung doors, can be easily adapted to most United States Aluminum framing systems. The corner construction is mechanically fastened and welded. Offset hung doors are supplied with heavy duty hinges or pivot sets.

- 3/16" wall thickness
- [Featuring CORNER-LOC \(patent pending\) Mechanically fastened and welded corners](#)
- Pair and a 1/2 of heavy duty hinges or pivot sets
- Available in an array of architectural coatings and anodized finishes
